Global catastrophic risks mitigated	Risk multipliers managed	Implementation timeframe

Multilateralism

This program serves to address the issue of youth leadership within the United Nations, and to illustrate the importance of youth participation in global governance and multilateralism in order to achieve the Sustainable Development Goals.

Great leaders don't tell you how it's done, they show you how it's done, and I believe many of the solutions we seek for the SDGS could be found in a room full of young leaders, if only they were given the chance to act, and opportunity to be heard.
